

Echinacea
Panama™ Red

First Successfully Produced Echinacea From Cutting

Panama™ Red
(PPAF)

The Quality of a TC at the Price of a URC.

Panama™ Echinacea has vibrant red flowers that transition to a burnt orange hue as they begin to age. Multiple layers of new flowers mixed with old add depth and richness to the plant. This Echinacea works well in both quarts and gallons. It is excellent in propagation and will yield growers high quality liner.

"You really need to try this amazing new Echinacea from Danziger. This one is a definite homerun. It is the first Echinacea produced very successfully from a cutting, and it is a stunning plant as well." says Joey Wiseman, Head of ThinkPlants.

"The deep, saturated red flowers were very eye-catching in the Mast Young Plants trial. Red stems also add to the contrast!" says Omar Tayeb from ThinkPlants.

THINKPLANTS™ participants represents a dedicated team, including plant breeders and horticultural experts, seamlessly connected to a supply chain.
